

Series CT

Kirton CT - 3 Stage – Vehicle Wash Water Interceptor Tank
The essential part of any vehicle washing installation!

Considering installing vehicle washing facilities?

Then consider the advantages of installing a Kirton 3 Stage Interceptor Tank.

The Kirton CT system has been specifically designed for vehicle wash effluents and is extensively used throughout the transport industry.

BENEFITS

- Reduces pollution
- Reduces effluent charges
- Prevents drain blockages
- Free oil removed
- Packaged one piece system including covers for fast, labour saving installation
- Connection of below ground pipework to connections provided, at time of installation, enables Water Recycling System to be fitted at later date, then enables the user to effect very attractive savings in water and effluent charges, or to continue to use the vehicle wash in the event of a hose pipe ban due to water shortages
- Recommended by all leading vehicle wash manufacturers

This product is included on the Enhanced Capital Allowance (ECA) Scheme's Water Technology List
