*Kirton Engineering, Specialists in Water Treatment & Water Recycling including:
Membrane Technology - Ultra Filtration - Reverse Osmosis - Sea Water Desalination - Effluent Treatment - Brackish Water Treatment
- Riverwater Abstraction - Centrifuge Separation - Vehicle Wash Water Recycling - Laundry Wash Water Recovery*

Series SEA-Clean

INTRODUCTION

Kirton is a specialist company with unparalleled expertise in water treatment, including purification and reclamation. Initially founded in 1969 to develop and produce water reclamation equipment for use in automotive vehicle washing, the company has since advanced to create processes and equipment for practically every application where water is used.

CONSTRUCTION

Stainless steel grade 316 fabrication for 500ltr of stored filtered water

THE SOLUTION

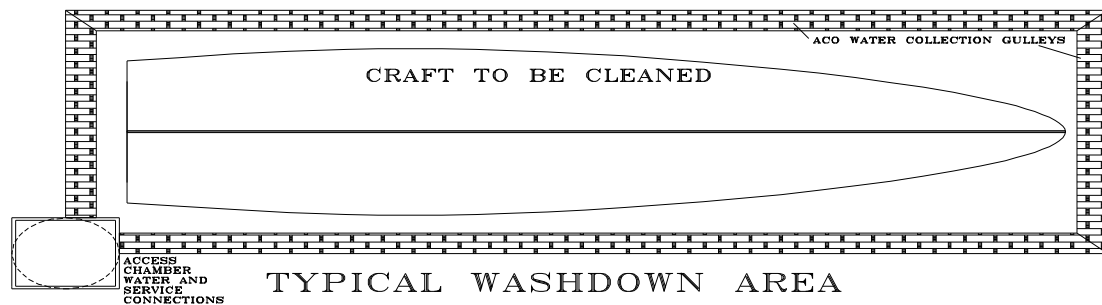

The answer to safe and effective pollution control comes from the elimination of oil / grease along with anti foul pollution from the wash down area and the resultant drainage into the marina

AFTER SALES CARE

Fully trained engineers are available on a 24-hour call out service, 7 days a week. All Kirton equipment carries a comprehensive 1 year warranty which can be extended by a service contract

n **Booster vessel to provide pressurised water supply**

n **Filtration vessel to remove contamination**

The move towards reducing maritime pollution leads many marinas toward a “greener” approach to the operation of their boat wash down facility.

We at Kirton have been developing a solution. Our Series Sea-Clean is a packaged recycle system providing the answer to pollution from boat wash down. The system eliminates oil and grease along with anti foul pollution from the wash down area and the resulting drainage into the marine.
